OLD MISSION

Wider joint for permeable applications

Is that time worn cobblestone or concrete? With Old Mission, it’s difficult to tell.

Wide joints allow for use in eco-friendly, permeable applications.

NEW! NEW MISSION

Tighter joint for non-permeable applications

Textures and colors of New Mission exude elegance.

Pavers can be placed together tightly, for a smooth, even surface with an extra touch of class.

TYPICAL PAVER CROSS-SECTION

PERMEABLE PAVER CROSS-SECTION
